

Dear Commission Members,

Sinclair's decision to force their stations to air a documentary that smears John Kerry is like dictatorship governments that own the media and brainwash their citizens with despicable propaganda.

Sinclair uses the public airwaves free of charge and is obligated by law to serve the public interest.

There is no place in the USA for their kind of anti-democratic control of television stations.

I urge you to inform Sinclair that their actions are totally unacceptable, and that they may not go forward with their plans.

Thank you for your attention to this matter.

Rosalind Rappaport
